

Please reject NAB 04-160.  
XM (and Sirius) satellite radio offer a superior service to what is offered on commercial radio (which is why I happily pay for it). I am sick of static & commercial filled AM & FM. Do not take XM and Sirius' superior services away from me. This should be the choice of the consumer - do I want to pay for a better product or settle for free \$%\*&\$%(\*\$&. I have made my choice!

Doug Puerta
